OBJECTIVE

2024 graduate pursuing a junior software development role with a focus on back-end development, aiming to refine technical skills, contribute to impactful projects, and grow within a collaborative, fast-paced environment.

PROFESSIONAL EXPERIENCE

Hybrid
09/2026 – 11/2026

Intern .NET Developer
ITechPro-eg

- Contributed to developing **TAM**, a multi-tenant travel agency management system using **ASP.NET Core Web API, C#, EF Core, and SQL Server**.
- Developed RESTful APIs for bookings, pricing, supplier services, and travel packages, with code reviews and technical guidance from a Senior .NET Developer.
- Implemented **JWT authentication, RBAC, and tenant-based authorization**.
- Wrote **integration tests using xUnit** to ensure API reliability and business logic correctness.
- **Backend API (Swagger):** https://api-dev-tms.itechpro-eg.cloud/swagger/index.html
- **Live Demo:** https://dev-tms.itechpro-eg.cloud/

Zamalek - Giza
11/2025 – 07/2026

Digital Egypt Builders Initiative (DEBI) - AI-Powered Web Applications Development
Ministry of Communications and Information Technology (MCIT) - Egypt

- Built an AI-powered Resume Builder Platform using React and Node.js, integrating AI capabilities into a full-stack web application.
- Gained hands-on experience with React, Node.js, Python, Java, MySQL, MongoDB, Git, Linux/Bash, and RESTful APIs.

Dokki - Giza
03/2025 – 07/2026

Route Full-Stack Diploma Angular/.NET Track
Route Academy

- Developed an E-Commerce WebAPI using ASP.NET Core and a Gym Management System using ASP.NET MVC, applying OOP**,** advanced C#, LINQ, Entity Framework Core, database design, RESTful APIs, authentication/authorization, and backend development principles.
- Built an Angular E-Commerce application, applying modern frontend concepts including standalone components, routing, forms, authentication, API integration, responsive UI, and state management.
- Applied Git, debugging, software development practices, and frontend/backend integration throughout hands-on projects.
- Recognized as a **Top Performer in Backend Development using ASP.NET**.

EDUCATION

2020 – 2024

Bachelor's Degree
Faculty of Computers and Artificial Intelligence - Cairo University
Information Systems Department
Graduation Project: A+
GPA: 3.07

High School
Future Language School

PROJECTS

E-Commerce Backend System
ASP.NET WebAPI, EF Core, LINQ, SQL Server, Redis
- **Concepts**: Onion Architecture, Repository & Unit of Work Patterns, AutoMapper, Authentication & Authorization, Result Pattern, Dependency Injection, Specification Pattern, Caching, Stripe Integration, IIS & MonsterASP.NET Deployment
- Developed an e-commerce backend to manage products, users, orders, and business operations.

Gym Management System
ASP.NET MVC, EF Core, LINQ, SQL Server
- **Concepts**: 3-Tier Architecture Repository & Unit of Work Patterns, AutoMapper, Authentication & Authorization, Result Pattern, Dependency Injection, IIS & MonsterASP.NET Deployment
- Developed a gym management system to manage memberships, subscriptions, and daily operations with a clean and maintainable architecture.

AI-Resume Builder Platform
React/Next, Tailwind CSS, TypeScript, Nodejs/Express, PostgreSQL
AI-powered resume analysis platform with intelligent job matching and responsive dashboard UI.

E-Commerce Frontend Application
Angular, TypeScript, Tailwind CSS, RxJs, API Integration
Built a responsive e-commerce platform with authentication, cart management, filtering, and API integration.

SKILLS

Programming Languages: C#, Java, JavaScript, TypeScript, Python, Golang, C++

Backend: ASP.NET, Django, Nodejs, LINQ, EF Core, API Development, RESTful Services

Databases: SQL Server, mySQL , Redis, MongoDB, PostgreSQL

Front-End: HTML, CSS, CSS Animation, Media Query, Bootstrap, Tailwind CSS, jQuery, SASS, Angular, React

Software Engineering Concepts: OOP, Data Structures, Design Patterns, SOLID Principles

Tools & Development Utilities: Git, GitHub, Postman, Swagger UI
